Contributions for the 14h Colloquium of the Interdisciplinary Research Group on Mediation

Dear academics in the field of mediation research,

we invite everyone who wants to present their research on mediation during the **14th International Colloquium in Cracow** amongst mediation researchers of different disciplines to apply with a proposal. Outlines of research projects are welcome as well as the presentation and discussion of planned, current or completed theses (primary dissertation and habilitation or post doc, secondary)!

Please send your proposals in German or English to us via email: info@forschungsgruppe-mediation.de

The deadline for submittal is the **15th of January 2019**

Please send us:

- A *summary* of your contribution (2-3 pages). For theses, please give an outline of your research methods as well.
- A *research question* you want to discuss in the colloquium or *specific issues* on which you would like to exchange or get advice.
- A short *description of your personal reasons and goals* for presenting in our colloquium.

The time frame for presentation in the colloquium is approximately 20 minutes. Afterwards there will be a moderated discussion of 30-45 minutes. You have the possibility to provide all participants with documents beforehand to introduce the subject of your research.

We are looking forward to your application!

See you soon, your leadership team of the Interdisciplinary Research Group on Mediation

Dr. iur. Katarzyna Schubert-Panecka, Dr. phil. Katharina Kriegel-Schmidt, Klaus Schmidt
